Tails of ghosts laid to rest. Where they only sleepin
To love songs turned inside out to pastures of
I am holding my breath.
Silence
But love still sticks in this heart
Reciting this lines as I run my fingers through
your hair
Weaving eachother's eyes all night
once again
I love you so
There will be strength
Let's leave this place
Feel that peace
For you and no one else
Only you
Pray
For the best lies in life are not free
I'll pull the razor blades from your spine
Drink wine and smoke
until the morning's clean
shake to bring
The same old daydream
Behind a locked door a re
river is flowing. I am
drawing of paint. This
can't be the last time
There is something that
pushes through. Lit sticky streets
that possess
There is something that brushes
against soft white breath and
I can't believe I'm here
All the sweat in the
And the burning nights
Don't throw your smile to the wind
Flicker eyelashes in the skin. Waking with that feel
The skin rains, all and time suspends
Bent and broken the river bend
You were one more kiss from letting go
But I'm stuck here
the space between rapture
There is no grace in the thought
So I'm captivated by silhouette in lines
It's the same that appears through waking eyes
It's the chase that I meant when I spoke of
melancholy possibilities
Unrealized beauty, you are a tragedy.
You have always been
There was darkness in her eyes
I felt it pierce through the empty lives
My final gift to you. Complete abandonment of logic
Sunken glass and shattered souls
Pretending not to bend
Pretending scenes
disgusting
The social
Tonight
Where vacant souls fill temporaments
Bliss
Break the news so softly
With that look of satisfaction beaming
Turning concern of I scream into manic tenacity
Needing something to suppress this
I can not believe that this is happening
now
You turn to me with tear stained eyes
And I state that there is beauty within your
smile
You ask me, "How can you say that is a
moment like this? You sound so sincere"
This is so sincere
Rapture and redemption
The skin
Is will not
let me sleep
tonight
The skin
Does he scream
your name in
the heat of
passions bed
Is I have
done before
It now peers
through the
that slipping
I will sing for you a new song
Between spitters, coughs
with bloodshot eyes
When God only
knew what is
Let me in
Your voice
Was a contagion
Forgiving me
Oh (Gwendolyn)
How can this
feel right?
feel alone
Now
were all
value.
The days
Make me
become everything
is in theory with you tonight
It always is
next to me
Dodges the suitors
By my mind
Sleep with me
Stand up
We are so young
I'm found in the beats
So sweet
of silent
This is where we
Let me
Pierce the sweet
